Dear Mr. Johnson,

Thank you for the registered package, which has arrived,

There was an error in it. What I had asked for is the original document (or a copy of it) from which the Ferris statement, 206:585-6 was transcribed.

I would also appreciate the following:

Doc 87, folder 1, 146 (perhaps another page or so in it) & statement by Lee Rankin saying there were two CGs in Tippit.

Copies of covering letters, memos, etc., on all parts of the autopsy protocol, from the hospital, to the Secret Service and from the Secret Service. This seems not to be in the file you have sent me. What I am interested in is also the original distribution of the eight original copies. In this connection, one of the documents in 4-1 that you sent me said the receipt for the photos and X-rays executed by Roy Kellerman was attached. It was not, and I would appreciate a copy, please.

Robert MacNeil, then of NSC, was interviewed by the FBI in 1964. He is the man who would see when a "crew cut" man said by word to the Secret Service entered the TRND to use the phone.

File 5-1, Gerald's income taxes.

If there is a summary report on the facts that led to the assassination of Oswald, I'd like a copy of that, please.

Is document 1008 still classified? If it is, will you please let me know under which of the guidelines.

Thank you very much.

Sincerely yours,
