dear rod,

not damon runyon - some tendon pbblem in right arm.

when last we spoke you wanted to see the declassified cia records on dulles cueing them in on how to evade the warren commission.

this is my only dupe. appreciate return after you finish. two pages are stapled out of order in the attachment.

the masking was by the cia.

you will notice the next to the bottom line on nosenko, the last one here. nosenko is not mentioned in the warren report. he said the reds suspected oswald was an american sleeper agent. no mention is, i think, thr bottom line.

bearing on this there is the first page of a slawson memo of 3/12/64, partly masked. what is masked is helms asking the commission to hold off on nosenko.

schweiker also did not mention nosenko's name. he is "N" in the schweiker report.

none of those/whose identities he hid are unknown. "D" is his report and in the enclosed helms 6/4/64 memo is one alvaredo ugarte. the border crosser is the gilberto lopez of the other attached reports.

the fbi has begun to unload the king files of which i spoke to you. they are masking some. i am getting at least 20,000 plus pages, more i am sure in time. to date i have about 1500 pages plus about 2700 of the index to its prosecution files, those it sent to memphis. ap had a piece on all the john willards they were looking for. having been told so also reported the fbi had ~~was~~ released 442 pages, as the story read because they are good guys and when they received requests under the act why naturally they complied. truth is they are kicking and screaming and still resisting. this is my lawsuit only, an effort that began in 3/69. it was finally filed ~~was~~ more than a year ago. the hearings transcripts are three inches thick. on 10/8 they promised about a 44-week compliance period. neither we nor the judge agreed. there it rests.

what is not known and i do not want to get around i do tell you on the chance it can lead to the kind of help i need on this. i have the via in court and under ~~an~~ compulsion to respond in a case in which it is not the respondent. i have a notion it does not like the vigor with which jim and i press in court and is opting lesser evils. i went for their king files long ago. nobody knew they had any. do they have them! but i do not want the nuts and ripoff artists to get on my back still another time and misuse what i get or beat me to my own work because of all the time sll the suing takes. they have asked for search fees much greater than the fbi charged me. had to give then \$500 deposit. unless they are gypping they have a hell of a lot on files that are all secret and have not been leaked. my probkem, as usual, is paying all these costs. the search charge alone is \$1,000. then there will be an added per-page xeroxing charge. i have no idea what i can promise to be in thesex files. i can tell you i have not mentioned this to any reporter and until the bind gets tighter have no such plans.

excuse the typos. i have been at it 18 1/2 hours. lil says she misses you.

best,
