Dear Sir,

A while back you printed an interview with Edward R. Fields, of the National States Rights Party. I was sent a photocopy of part of the page (7), hence I do not know the date.

I would like to obtain the complete interview, for use, with attribution, and of the pictures. I am particularly interested in the picture of Fields and an unidentified man sitting under a caricature of Dr. King. The others in the second picture in the copy I have also interest me, if you can identify them.

If the pictures are your own (they do not carry credits), I would like to have prints suitable for printing, if I want to do that and you are agreeable, paying you now for the prints and, if used, for the added cost, if any, for publication.

Perhaps you have data and pictures not used. If this is the case, I would very much appreciate an opportunity to examine them.

Thank you very much for your help.

Sincerely,

Harold Weisberg

N.S.R.P. Answer To The Civil Rights Movement

'HANG 'EM HIGH!'

savages and white girls making love or mixing with each other on TV. A lot of people believe these so-called blond-haired girls are really just Jews with bleached hair. Not only that, the networks and entertainment industry give the Jews all the breaks—and they disguise it by having their stars use Christian names.

Q. For instance?
A. Well, take Edye Gorme and Steve Lawrence. They are really Jews who have pushed their way into the limelight past a lot of better-talented and well-deserving gentiles. The press doesn't have the decency to inform the public

ished by God for mating with a Negress. When the Bible refers to the "beasts of the field," who do you think it's talking about?

Q. Well, I haven't read the Bible lately. Now, if it was in Playboy . . .

A. Well, I had something to say about it in Playboy, too. They had an interview with Eldridge Cleaver, the convicted rapist, who wants to be president of the United States or something. In his interview, he clearly shows that Negroes prefer white women because black women are ugly and stupid.

Q. Yes, I read that. You said

Holy Bible when he created the various species and "set the bounds of their habitation." It's a humane plan, and will save many white and black lives and bring peace and prosperity to our nation and eliminate the evils of Negro crime and ghetto filth.

Q. Where do you get these ideas about the Negro being a savage?

A. You can find references anywhere. The brain of the Negro is about 13½ ounces lighter than the white man's brain. The forepart of the Negro baby's brain, where the intelligence develops, closes about 25 per cent earlier than it does in white babies. And the Negro baby's motor nervous system is completely developed in four weeks, much earlier than the white baby — but similar to the apes.

Q. What's your authority for all this medical information?

A. The encyclopedia.

Q. Where do I find that in my 1968 Britannica?

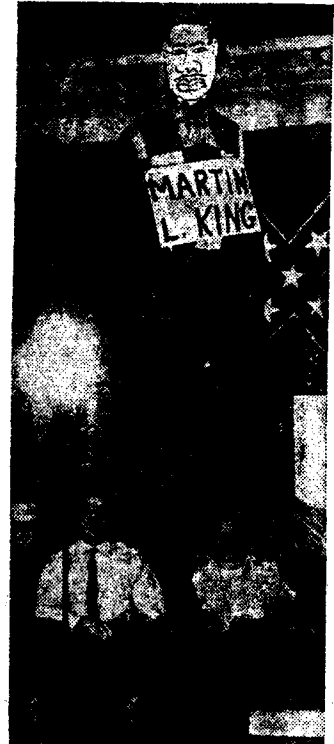

A. You won't. All the modern encyclopedias are under the influence of Jewish intellectuals. You have to go back to when they told the real truth in encyclopedias—back in the 1930's.

Q. Do you back Wallace for president, or are you to the right of Wallace?

A. We backed Wallace in the last election, because we figured he was the man who could win. Next time we may be backing someone else—or we may back Wallace, if he decides to run again without that dumb Gen. LeMay. We already have a man who will run for Congress on the N.S.R.P. ticket in Chatham City, Ga. (in the 1970 Congressional race). We're going to have a lot more before the next elections.

Q. How do your people consider Nixon's actions since he took office?

A. Millions of whites voted for Nixon in the false belief that he would give the white people some relief from the forced race-mixing of the Democrats. You know Humphrey got 92 per cent of all the Jew votes and 98 per cent of all Negro votes. Now Nixon is trying to out-nigger Humphrey and keep the white people in his hip pocket at the same time. Well, he's wrong, and we're going to prove it. And he's got the Jews Kissinger and Burns in super-powerful positions, with influence that will affect the destiny of our country. He has stated that he is going to abolish senara-

about the truth of their Jewish background. The same with the Jew Lorne Greene, of Bonanza, and a lot of others, with gentile names.

Q. Why is your party so anxious to get rid of all the Negroes in America?

A. They are dissatisfied with life in this country. Their resentment towards whites grows in ratio to the aid we give them. And all the billions spent on welfare, poverty aid, rent supplements, and free food have failed to make the Negroes happy. Vicious assaults by Negroes are getting more numerous, organized black riots have hit every major city, they're getting ready for guerrilla warfare against the whites, and now they even want

that instead of disarming the police as Cleaver advocates, the police should be given heavier and more powerful weapons, such as bazookas and machine guns, and be ordered to shoot lawless blacks first and ask questions later.

Q. But that would be suspending the constitutional right of trial, and the tradition that an American is innocent until proven guilty. . .

A. That's the point—Negroes have always been wild savages and always will be. They don't belong in this country, and when the National States Rights Party gets into power, we will solve the race problem and have a white Christian America.

Q. How do you propose to do this? The same way they did in

worked out — it's apportioned among every African nation according to population. We figure that this country could ship about a million and a half Negroes back each year until they are all where they belong.

Q. Do you really think you could get a majority of white Americans to go along with such a ridiculous plan?

A. Well, when Playboy printed my piece, we got a lot of letters from Playboy's three million or so readers—and a good one-quarter of them were in favor of my ideas. And Playboy likes to brag that they've got the educated young leadership of the country. That'll give you some idea.

Q. But they were writing about your ideas about the inferiority of the Negro. You didn't say anything about shipping them all back to Africa.

A. Well, it won't be much of a step to get them all agreeing to our deportation plans, once they're in agreement about whether the Negro is inferior to the white man or not.

Q. What if somebody came up with new scientific information proving that the Negro was the white man's equal—in fact, was not basically any different?

A. Is that what you're trying to tell me?

Q. Well, that's what I was taught in school—it's standard in any modern psychology class, or anthropology or sociology, any
