

1/26/95

Dear Bill,

I'll have more wading for you soon. I've finished the ms of the Hosty book, about 65,000 words. I'll read and correct the last chapter in the morning. I wish I had the Lifton book to get onto. But the local stores do not have it even as coming in their computers.

We had another hard rain today and that took more snow with it. The air feels like a storm is near and the temperature dropped 10 degrees in the past hour. But if we get no more snow for a while the rest will gradually disappear. Yesterday morning in the medical building parking lot there was a front end loader moving the remaining and still high piles to the outer perimeter.

Nice letter from the justice. Thanks for it.

That Clinton seems to be surviving the vicious nazi-like attacks on him says much about the GOPs and their crazy ideas and propagandists like Limbaugh. For all the people they reach they can't make the Clintons less unpopular.

That local pol is as nuts as you said and his sheet as crazy!

The crazy thing about Forbes is that the others may direct it all to him, they are that bad. Dole did himself in by being ^Wole in his state of the union response.

If Clinton can ever drop the myth that he can make those momers like him and starts to really respond as he can he can wipe them out and would. He is much too timid, too.

I think I may have someone to retype the chapters I added to the Newman book. I'll know more tomorrow when she phones. Another student from a foreign country who this semester is in DC and has no car. I've five chapters for that and I think five more for Waketh.

Meanwhile I've gotta get that Lifton book. I'll do it next.

The Hosty book is being retyped by an acquaintance who lost his job when staffs were reduced. I hope he continues with it. I'll know more on Monday.

I do not know when the classes begin again. I've not heard from Jerry in about three weeks and I did not want to interrupt the time he has for his own work by calling him. But those two young women who took retyping home with them should be getting in touch soon. That will give me that work to do, read and correct what they did.

If your media has not mentioned it the rain before today did extensive damage to the C&O canal, at least 20 million in damage. The pictures show stretches of it just washed out.

Best,

David
