Dear Harold:

Hope your press conference on Never Again! goes well. I got a newsletter from Jim Lesar recently. Maybe you boys can spice things up with a little PR.

Quiet here. I wish I could get some time off to go fishing. I have been just busy enough. I can't take off but not busy enough to be rich. Maybe if some of my clients would pay me.

I saw Chip Selby got a credit on the syndicated show Encounters. Lots of UFO stuff. Wish they would come and visit me. There is an old rock song, Hey Mr. Spaceman won't you please take me along, I won't do anything wrong! Came out in the late 60's when there were a lot of UFO sightings.

Speaking of UFO's, I saw a model of the Aurora-Penetrator we talked about a few months ago. Seems the smaller of the jets, taken aloft by a plane that looks sort of like the SR 71, somehow sits on the belly of the larger plane. Sort of how they dropped the X15 off.

I have been thinking alot about the Oklahoma City bombing. It seems pretty naive that security has not been beefed up at all the Federal buildings. These nuts could be planning another attack, to further their revolution. Interesting that Nichols was a Spotlight reader.

Marilyn Monroe stamps are out. The post office did a good job of presenting them. Did not do this with Elvis or Nixon. Suitable for framing.

Gerry G. may be passing through in June or July. If possible, we are going to hook up for dinner when he comes through town. He has not been able to get a copy of Never Again yet.

I bet it was a damn empty feeling to know that Jews were being killed in Europe and no one believed it. Even when Nixon bombed Cambodia, as I recall, the US newspapers did not have enough guts to print it, just reported what French newspapers said. Like France is on another damn planet and not to be trusted. Gutless.

Gotta go back to work. Betsy gets a vacation next week and I don't. Just another example of how unfair life is. Hope your leg heals rapidly and try to take better care of yourself!
Bill
