

Dear Bill,

6/23/95

Thanks for your 6/11 and the enclosures not the <sup>last</sup> of which are these stamps. Having to tear them off tends to indicate more how many of them + use! The other enclosures are interesting, too.

Whayne's ex cannot be all that add and come from <sup>B</sup>ardstown. Best ~~is~~ water for bourbon and Bibb lettuce there is. The poet Seiler was not provincial enough!

Of the book chains the early reports indicate more Border's interest. But they now own Walden and some of these stores are not stocking the book. Including here. At least one Walden's in Florida is giving 25% off on Hailer 's Tales.

That is a fine display next to your BB coach. - hope it attracts attention! ~~Am~~ do appreciate it. First thing like that I've heard.

On Justice Lambert, there is no reason to believe that Cooper was part of any coverup. If I did not send you a copy of Senator Russell Dissents tell me. + think I make it clear in that that he and Russell were conned.

I've not yet finished reading HA! either. I'm up to the Afterword though. After at least six weeks!

I've not tried the ribbons because this machine is not listed on it. When I've been in the store where they should know only the ignorant clerks were there. I may rewind on an old spool, the spools appear to be different. Question of time, as you can see this ribbon should be replaced. But one reason I'm reluctant to is when they get pale I do not have all the trouble washing the ink off my fingers because this machine sticks so much now.

It is not only the small gloves in the Simpson trial. Remember what + told you about so much wrong as with Oswald and Ray. I do not assume they make all those police mistakes from ignorance.

On an article about me, the book editor of the Pittsburg Post Gazette is coming here next week to do one. If any good I'll send you (all) copies if I get one.

He'd not heard of HA! and he wants to do the article not on me, not a review.

Be nice to go both.

Finished with Newman and back on Hailer but I've not quite finished reading and correcting what I'd written before Newman. Will in the a.m. and then back to writing about him

Glad Betsy and family were pleased and that Dick is doing so well.

Thanks and best,

Harold
