Dear Harold:

Thought I would write you a brief letter. Yesterday I sent Dave Wrone my copies of the Jack Ruby psychiatric reports. I think I had sent them to him 2 years ago, but he could not find them. It took me a few days to find mine!

I was very proud to find them in the first place. I think that it shows that you are correct, that much material that should be in the exhibits is not. Although the psych reports tend to support the Warren Commission view of Ruby as an unstable man with a hot temper.

Wrone should have them tomorrow July 13, because I sent them 2 day mail.

Have not heard anything from Bob Schulman, which is not a surprise because he probably just got the material I sent him on Sunday, when he did his show.

What is your opinion of the Rosenberg controversy? Mine has always been that Ethel at least should not have been executed, she knew little. And I have never seen any evidence that Julius was ever in a position to give nuclear secrets to anyone. I was always under the impression that they supposedly gave Hydrogen bomb secrets, but I may be wrong, it may have been an atomic bomb case. People have always been under the idea that the Russians are backward rubes, but looking at their space program, that clearly is not true.

Glad Clinton normalized relations with Vietnam. Guess you can't make everyone happy. But it is the right thing to do.

People talk about Clinton like he is doomed politically, but I just don't think that is true. Dole, Buchanan, Gramm just don't look like they can beat him. Almost every time Gingrich opens his mouth, he scares people. And I think that the issue of Medicare is not a good one for the Republicans.

Weather is hot here. Almost 100. Betsy is teaching a class on medical records one night a week. Glad the car air conditioner is working.

I bet you are looking forward to seeing Ginocchio and Mac Donald next month. They are two of the nicest guys I have ever met. It is quite a coup to make a speech on the Kennedy assassination in Washington, DC.

Better get back to work. Say HI to Lil, and don't get too hot. And double check your typewriter, I thought it was some model other than the #3000. I thought at one time I sent you some ribbons that fit perfectly. Let me know.
