Dear ~~XXXXXXXX~~ It must be Monday!

Dear Harold,

Enclosed please find a copy of this weekend's NYTimes Book Review, with a large ad for Newman's new book, which I have not yet seen. I hope C&G can break loose with some cash to advertise your books. Hell, they could advertise three books in one ad with you.

I don't really understand why Newman did not sit down with you-for a week- and go over his ideas. I think some of these geniuses feel you are going to steal their ideas-what a joke!

All of this makes me glad that I have taken the time to study under you and that you have spent the time with me. At least I feel I have some understanding of the subject matter.

I will try to get the Bev Oliver book blurb for you soon.

I also enclose some book reviews on Churchill. One by Henry Kissinger.

I look forward to seeing your comments on the Rosenbergs. I have always been of the opinion that neither one of them was smart enough in nuclear physics to do what they were convicted of. Especially Ethel. I would hate to think Betsy would get the electric chair for something I did!

No word from Bob Schulman. Sometimes I hate to give people this material on JFK, because I think it "blows their mind" and they can't comprehend. It is like their world has changed. I at least hope to get a thank you card!

Like I say, the experience I have with other people makes me appreciate you and Lil all the more. You will never know how much I appreciate all you have done for me. I read that Livingstone mess. What a crazy SOB.

I sent the Jack Ruby psych report to Dave Wrone. He should have it -by now.

Louisville was hot, hot hot last week. About 92 now. I think last Friday was the second hottest ever. The hottest was unfortunately at a stock car race I took Betsy to a few years ago. 99 at midnight!

I shall sign off now. I will write soon. I wanted to get this Newman thing to you post haste.

Bill

stay  
cool!

SEE OVER

I watched the movie "Malcolm X" this weekend. It was excellent.  
Followed the Autobiography of Malcolm X almost to the letter.

Oliver Stone's JFK was as good as Spike Lee's Malcolm X, I think  
even you would have approved. Almost a documentary, I know much is  
very accurate. Read the Book almost 20 years ago. And the actor  
looks like Malcolm's twin.
