

Dear Bill,

11/5/96

We got the mail a bit late yesterday. We had two extra medical appointments, dermatology for both and internal medicine for Lil. All is as OK as it can be in those areas. And shortly we leave for Johns Hopkins, where I have the urological appointment I have every six months and then cardiology, every two months since those attacks of congestive heart failure. Having decided to do my usual early-morning walking and having returned from it, I have read what you added to Waketh that is new and thank you for it. It is good and I suggest another clipping to add if you make more copies-if Dave can retrieve it.

I did not, when I wrote Whitewash, expect to continue with more assassination writing. While trying to ~~get~~ get the book published I was researching Aesop in the State Department. Then when I continued with more assassination work I gave the research for Aesop I could find to Dave. Included was another Wash. Post clipping. The story was about Latin American dictators we educated/trained. Most of them. That story was in 1966 or 1967.

I do not know how the Internet works but after the comments Aguilar made at last year's COPA an Ohio woman who has been in touch with us was critical of Gary on the Internet. He sent us what she said and his response, both from the Internet.

A skim of what you sent from it is not impressive. Nut stuff.

As you may realize, what I had in mind for Aesop was altered some in the research I then did for Tiger to Ride. Much of which got lost when I loaned it to Roffman for him to use on his thesis.

I hope that I sent you the few and rough errata and that you made some of those corrections.

Again thanks, and out best to you both,

*Hardy*

No fluid in chest, b.p. high but cardiologist several times commented on how "good" + look.
