10 am the day after Thanksgiving
Waiting for a client.

Harold and Lil"

Hope you had a nice Thanksgiving. Just got through reading the Epilogue to Waketh. jVery good.

The last disk you sent me won't print out on my computer so I will try others.

I had my copy of the unedited Case Open bound and copied. I have offered one to Gerry Ginocchio. Don't remember what everyone has.

I think you are right that the Enquirer is not interested in my article. I don't know if the UK student paper ran my other article either!

I may offer it to the Star. They have done a good job on Pierre Salinger and a picture of a possible missile on TWA jet crash. One of the things that disturbs me about the press is that they seem to ridicule Salinger, rather than examine the facts. After all, he was a US Senator I think and is a somewhat serious man.

I want to make a speech on the JFK case. I am going to see about the local historical society, the Filson Club. I would like to post some of the more controversial FBI memos, etc. on boards around the room so people could see them.

And the Altgens picture.

Interesting that Wrone is sending some to interview you for a documentary. Does he know these guys well?

All is quiet. Went fishing last week, caught a hybrid striper. Cross between white bass and ocean striped bass. Better fishing through genetic engineering! I am unhappy that I did not get to go to Key West this year. But I think the weather has been bad, very windy. Too windy for a small boat. But I have ordered a new van so when I get that baby broken in, I am going somewhere!

Take care.

Bill
