

Dear Bill,

1/3/91

Bill Hills, PO Box 1119, Hughson, CA 95326, is a dear friend and as fine a person as you will find. He has a friend and former employee named Charles who has a struggling xeroxing business. Charles works parttime on another job to keep going. Bill has a high-grade and very successful security service called Triad. This is his busiest season yet he just got from him a new supply of Whitewash for which he accepts no pay. Charles does the xeroxing and Bill and his family, as I understand it, do the rest.

He called yesterday to ask if the books had come OK. What a fine job he did of packaging them so they would! Before I forget, he has an 800 number, 800/559-7237. What I wonder is if with the added cost of mail Charles can give you a better price on work you have done. I just learned from Bill that Charles copies not only both sides, which the books are, but he can do good bindings. If it would do Charles any good I'll appreciate any business you can give him.

I let Bill have anything I do and he can copy it and keep it. He is also making a few copies available, like one he now has, I've forgotten which, of which he is giving Hal Verb, an old friend, a copy.

Now Bill finds the time I do not see. He is expanding his business, just got a new building for offices and garage and he manages it and manages to get those buildings ready.

Lil and I like him very much and he has been a very good and very helpful friend.

Hughson is in the Modesto area, sort of central California/
Gallo wines area, sort-of.

Jerry is half through posting the corrections on BZgus, on Hall/ARRB, and the woman who did the second epilogue of Waketh has those corrections to post. Did I ever send you the first Waketh epilogue?

Best,

Harold
