

Dear "All Natural" Bill,

8/3/97

A boast I have not been able to make, had it occurred to me, for more than 20 years. I have for that long been a part-plastic man, with wires that would surprise you visible in my chest X-rays. Plugged-up plastic at that, teflon and a harder substance that in particular is plugged and it is where the leg arteries connect to the femoral. But with the walking in particular, on which I wish so that I now did not just look back on, I enlarged so many smaller vessels that I still have the legs the family doctor told me in 1990 he had expected me to loose 10 years earlier.

There are many ways of being natural-and not natural. I think you qualify for the natural.

No ~~objection~~ objection of sending anything to those to whom you have in the past. And I'd like to hear if you have the first epilogue to Waketh and whether it has been retyped.

Bugliosi is full of.... He had a success and he has been exploiting it. He had nothing about Oswald or the assassination in that Playboy article. Whitehurst is a rare thing in the FBI. Not that he is a man of principle. There have been many. But that he was and remains willing to do something about it, to try to compel reform where it is so needed after the Hoover corruption continued by those cloned on Hoover and those cloned on them, which gets back to Hoover.

The Specter article also was interesting. His position on Israel may be what has made most of his more recent campaigns successful, there are that many caring Jews in Pennsylvania, particularly in the Democratic strongholds.

Lil and I with several other here saw what had to have been a UFO on a bright and sunny day. The way it maneuvered could not be explained by anything else. It was high enough we could not make its shape or size out. Its position, depending on its height, was more or less over Washington. It was in that direction.

I have repeated out of the Inside manuscript what makes a small book on the book Wedge and its author, <sup>Rip D'Inizio</sup> which means on what he wrote about. Two chapters have not been retyped and what was retyped was retyped with the chapter numbers omitted. I may have someone to type them and I should be able to get the mishmash on the computer disk from the woman Dennis had working on it.

ZZZ Sorry - miscopied on the disks of Bogus I would need. Jerry has <sup>used</sup> ~~used~~ it from his hard disk. I have one but no means of getting it duplicated.

This, quietly, is our 55th wedding anniversary.

Best to you both,

Harold
