

Dear Bill,

8/9/97

Until Lil gets back with the mail I begin to reply to you<sup>8/5/97</sup> She has stopped to visit with our neighbor.

Thanks for the effort with Webb and his paper. I've not heard from him and do not expect to. I wrote Ceppos about what they'd done and he did not bother to acknowledge it. They've been clobbered and it hurts them.

Reminds me, Jerry speaks of what I did to the press with the General Butler suppression as rather Swiftian. He has not yet been able to get that disk duplicated and the woman who did it left without all the corrections being made. She is Catholic and was getting into the Vatican, which excited her no end.

Oh what you told Webb, not ~~daily~~ <sup>daily</sup> or other than a small sort of cause weekly ever reviewed any of my JFK books. And damned few of the smaller papers.

When I have them out to copy for another purpose I'll copy what the CIA said to Hobby about the mafia plot that makes a liar out of Judith Campbell Exner, Liz Smith and many others. I think I sent you a copy. If not, let me know.

Thanks for the GQ. I'd never seen an issue of it before. The article you marked will be of interest. That kind of nefarious training is older than this seems to indicate. It was well established in the 50s when I was going to do a book, Aesop in the State Department. I gave that material to Wrono long ago. Before that special unit for doing it was created we were doing it anyway. The GQ could have included a Samoza son, who got his training here, including as I recall at Fort Leavenworth. In the ~~past~~ <sup>maybe</sup> past so ~~many~~ not.

Dennis is back and is visiting his family in Maine.

By now you should have the disk of Dogus Revelations.

I sent copies to the dean of the Maryland law school and the director of ARRB. No response. Not even acknowledgement. Also one to Houghton Mifflin, which is to do the Holland book in a year.

Best to you both, *any many thanks,*

*Herold*
