

Dear Bill,

8/29/97

Thanks for all the stamps with your 8/20, ~~which~~ ^{which} was not postmarked until 8/25, and came yesterday. We'll get the package of books made and sent and will tell you when it is sent.

I also wrote Webb, but w/o response. Perhaps he is learning, perhaps he wants to forget what happened to him,

On the first epilogue of Wqaketh, I've gone over almost all of it and have not quite completed it. The first six chapters of it are being retyped now by the daughter-in-law of a friend. I'd have finished the rest if Lesar and a friend ~~and~~ his had not deposed me yesterday in the lawsuit I got for him by retired Secret Service agent George *Aickroy* over what was said about him in Mortal Error. My copy of which has disappeared. They were satisfied with the deposition but for lack of preparation for which they did not have time they did not get into much they should have.

With the Archives, remember each of us gets a hundred copies free. *Betsy*, too. *Your father, mother, etc, each one.*

What Marina is quoted as saying should be considered with when that was.

The pressures on her were great. I recall that early on she said she did not know they came with telescopes. deMohrenschildt also said he had a rifle as I recall.

That business of the JFK collector is news to me. I have a friend who is a friend of the Ruby collector, the one who bought his pistol. Florida realestatnik. Italian name.

One computer disk to Dave was all. Thanks. You should have the *Crocker* ~~one~~ I just sent by now. I do not think I asked you to make any copies of it. Lost count in getting the others made. ~~No~~ response on Bogus from law school dean or from Marwell, who is leaving ARRB. I know the guy who is succeeding him.

I have not heard from McQuirk in some time. I've written again to ask if they are all OK and if I do not get a response soon I'll phone.

I have contacts of Borderson pix and will lend them to you. You can then ask him for any you want. He says he mailed it all to me four months ago. I've asked him to put a mail check on that.

More later. *His is* a rush so you won't waste time looking for that Epilogue.

Best to you all,

Harold

Wallenberg was a great one!

Letter in Lib's file on books
