Dear FHarold:

This typewriter is going into the shop as soon as I finish this letter. Notedx that you also with Betsy to comup with me. kWe are going to try to this spring.

Really, things could not be better. Dad has recovered and been rele-
ased. He is getting in shape on his treadmill. My brother Larry is
even making some progeress in his walking.

I may have an answer about your ~~diximxx~~ ~~XXXXXX~~ dizziness. Two
weeks ago, I got up and waas so di zzy, the room was spinning.
Came to work, j Dec. 30, and had to go home. Was better in 12
hours. Turns out, there is a type of flu going around that makes one
dizzy. It was like I was drunk, like when you are youg and stupid
and drink too much. Room spinning around.

REREAD that firts paragraph. I must be making up my own language.
Correction ribbon out.

I sent that NY Review of SDArk side to Ginocchio. I have neglected
my correspondence with him. He is a great guy.

One story that amazes me is Admiral Moorer stating his belief tha
t a Navy missile shot down Flight 800. KDid not see this story
covered on national news. How did the Wash. Post cover it?

My dad says we live in an era of "managed news". I guess that is one
word for it. How interested are CBS and NBC in hard news ~~ix~~ when
they are owned by Westinghouse and GE?

Where's Tedd-y Roosevelt when we need him?

I thought Garry Wills was exceptinal in his critique of Hersh.

Glasd you cheered up Jimmy Ray. What a crazy story. Have you read the
story on Dexter King in George?

I'll write later.

Bill
