

Dear Bill

3/24/98

Another exasperation suggests I not work for a while, so reur 3/23, heretoday, I tell you about Wurtzel, who is a fine fellow.

His visit was years ago, before Ed went into the tax-consultancy business on her own, so her office was the spare bedroom. He did go to Washington with me for more than that day in court. What else he did got him in the FBI's records of which I sent him a copy. He accompanied me and I think also Cesar on a ^{private} consultation with the FBI on the litigation. I think he rather enjoyed that, too.

He saw that I was mowing the grass and weeds here on this steep mountain-side with push hand mowers, so he bought me my riding mower, like the small tractor. I was then still in debt and could not think of spending money that way. Used to keep the place looking as it should look, too. Mower where the kids and the men who have mowed for me since it was no longer possible for me did not mow and that returned to the wild.

He is a fine person. His father was one of the Hollywood pioneers. His father did what Pual did, the work that made the movies possible but he was not one of the wheel the machers. Production is the word I could not think of!

I did not see that CBS Ray show. If you think I should take the ^{time}, please do send me the extra cassette.

Too bad about Pepper getting into that trouble but with that approach it is only blind luck that precludes it. You may have noticed I'd stayed away and said not a word to him other than in response and he did not have the right interests so I let it go his way and I've had nothing to do with him and what he is up to. Be interested if you have the story on that suit against him.

I'm sure the neighbor's kids will go bats over those hats and maybe the parents would like to know what Cat clothes are available. Wonderful couple!

First of our daffodills out for several days, day lilies coming up, and our friend Eddix, who broke a heel and could not work all winter, is cleaning the place up right now. We have someone coming this weekend, a Temple prof I'm helping on a book, as I did before.

I've returned the retyped Donahue/Menninger manuscript, with corrections, and I'm almost through the correct, Hersh above, the other one I'm almost finished making corrections and will soon have disks of both. I not have the Groden disk with a memo and as soon as I do some more catching up will be sending it ~~you~~ around.

Let me know when you decide to come so I can keep that weekend clear.

Best to both, ^{to} not all,

Harold
