

Dear Bill,

4/2/98

We look forward to what you hold forth in your 3/30. And please use the usual size page. My problems in filing proliferate.

I think it is important that Dennis and Gerry be familiar with what Jerry is accumulating for his own writing on two books I've turned over to him. He is more than willing to share and at least one of them should know what is readily available from him. I've tried to load him. And he had done very well with the 62-109090 or FBI liaison with the WC file, Some great stuff in it.

I'm glad you've become friends with Wurtzel. He is a fine person. As you should by now have learned that all I consider friends are!

If there comes a time you know you (or you pl) will be here please let me know so I can keep it clear.

I've started work on Posner. If you see anything or get any ideas please send it/them. If I can hold out I'll really eviscerate him this time! If I can retrieve what I'd like to use. It will be Posner and more than Posner. It will be the entire system in spades.

You've heard less because I'm more feeble and sit and rest when I can't work. My body is finally asking for more sleep and it is getting it. I listen to it. Also some extra medical appointments for both. Will needs the walker now and I spent part of Monday in the emergency room. They found nothing but the cardiologist has ordered some new tests I'll get tomorrow.

I'm glad that you and Dennis and Gerry have gotten so close. You'll never find finer people and it may be that they will want a lawyer's view or what they'll do.

Garrow is a self-important stunker. Who is careful to stay on the right side.

I showed him how to get around the crazy Judge Smith ruling that sequestered the King surveillances and for that he did not even send me a copy of the book. *Pulley, or, too!*

You ~~please~~ who plan to come ought also be in touch with Jerry. He may be able to put some up. His wife is a fine person and a great cook.

I think that when you ((pl) are here you should go over what I'd laid aside for the press conference Lesar was going to have for NA! and then chickened out on. Proof of the beginning of NA! included. Jerry has gone over other stuff I've laid aside. And with another college involved, I think Hood has a special reduced rate ^{on} copying. I think some of that might do for another board you can all use. I think D and G should consider working those things into their book, too. Too bad they can't stay here long enough so that we can talk more and they may get some ideas from the talk.

I may get it from another source but if you can send me a single list of what some standard text gives as what makes up the corpus delicti I'd like it soonest.

Thanks and best to all,
