Dear Harold:

The prodigal son writeth! I have a few minutes, so here I go. Saturday night, saw Dave Wrone discussing why the Zapruder film should be in public hands, ABC TV. Heirs want to sell for \$40 million.

Saw Robert Oswald on NBC Dateline Sunday night, discussing why he thinks Lee is guilty. But the most interesting thing was when he talked about Lee in his cell proclaiming his innocence.

Had to buy Posner's King book. Hate to give him any money, but want to be prepared for YOUR book.

New medicine has brought Betsy's blood pressure down. To normal range. As for me, I now have a prescription for reading glasses. I can see ok in bright light, but have trouble with low light.

Brill's revelation that Ken Starr leaked grand jury testimony and evidence to press is unbelievable. Knew his office did, but he seems to be a nut and zealot. I have a lot of respect for all the other independent counsels, but him. As a defense attorney, I found it to be doubly outrageous. Brill interview, Brill pointed out that Starr has not repudiated ONE quote. Starr is every thing that is wrong with prosecutors.

Forwarded 1st page of last letter to Don Wilson. No response yet. He has never written but called me twice. Told him -actually, think I sent you copy of letter.

TRYING to get some things out about speaking this fall. Hope I can.

Heard a thing this morning on Jane Norris show about Flight 800. Rodney Stich, author of "Unfriendly Skies" and "Defrauding America". Safety investigator. Says story he got is that CIA was offered chance to buy some stolen missiles, declined, and these missiles may have been used. Seems to discount Navy missile theory. On Pan Am 103-Lockerbie says DEA and CIA were looking other way on drug smugglers, and Syrians smuggled bomb on board. Only other version I saw years ago was in Barron's, a similar story. Barron's is a conservative financial publication that is owned by Dow Jones. WSJ.

Catching up on work, give Lil a kiss.

Bill
