

Dear Prodigal,

6/17/98

Harold Weisberg
17627 Old Receiver Dr.
Frederic

The high blood pressure medicines can be effective. Those that I know are for high blood pressure that I take are Norvasc and Hydrazaline. There is another that may be the name of which I do not recall this moment. Part of my last stay at Johns Hopkins was for their experimentation with the medications to learn which ones worked with me and which I could not tolerate. I learned only a week ago from the nephrologist I saw for the first time, kidney specialist, that some of the high blood pressure medications can cause itching. Which, as I have it, I wish on ^{nobody} nobody. For some reason I was not given the cardiologist did not agree with the critical care expert's belief that I should see a nephrologist, and that was when I was back from Hopkins, more than two years ago. I told him I was willing but I suppose he wanted no controversy with the cardiologist. This time it was the family doctor who made the recommendation at my annual physical. And we like this nephrologist very much.

Up with Brill! Overdue! But he has done it as well as it could be done with the major media behind Starr, who should be disbarred. He was a stinker of the far right inside DJ....What a hell of a way to direct national effort, to the President's beddings, if any, and I can believe there have been some, as for so many before him, including GOPs.

Had a visit today from a retire FBI agent with whom we have had a friendly relationship for several years. Bob Bates. He had been in the Kansas City office, with Hosty. He and his wife Jerry are nice people and we like them. Anyway, he is interested in the Hosty manuscript. I suggested that he ask you to have the disk duplicated for him. He said he would pay the costs and if you will be kind enough to do this, please let him pay the costs. He does not believe the official mythology on the JFK case and on a few others. *and thanks.*

This is the weekend coming that Dave Wrone Jr. gets married. We look forward to seeing him and his also brilliant sister who is also a doctor and in on the staff at Stanford. First year and she's been published twice! We haven't seen them since they were children. Had a fine visit from Dave and Elaine a short while ago and will see him again soon when he is at the ARRC meeting.

No word from Don Wilson, thanks.

Best,

Harold
