October 25, 2000

Dear Harold:

Thank you so much for your kind letter. I really have not been myself for 2 years, since Dad died. We had a best friend kind of relationship, and then six months later our German Shepherd died. We went to the shelter and got another great dog, a black sable Shepherd we named Pat.

So, I was about to get over it when Mom got sick this summer. It really has hit me like a ton of bricks. Fortunately, we don't have money problems. I am certainly sympathetic to those who do. I laughed when you said in one letter to snap out of it. That is exactly right. Don't worry about me, I'm okay, just rattled.

I just about peed in my pants in middle September, when I was walking the dog around midnight. Like a light bulb going on over my head in the cartoon, I realized I was two weeks late in paying my bar dues. I sent in the check with the explanation that we had health problems in the family. The Bar did not say a word! Thought it was going to be a \$250 fine at least! President Clinton did the same thing once. Not that is a good excuse.

A new book about Jackie Onassis says she and Bobby were lovers. I believe that to be total bullshit. As I have often said, write a book about Kennedys and good things, sell 50,000 copies. Say bad things, sell 500,000 copies.

We had one interesting thing happen. Betsy bought a new printer, installed the software to make it work, and the bastard erased all the operating systems off the computer. Several engineers said, "It's impossible." But it happened.

Anyway, this is my plan. I'll look for all the computer disks I have and make a list. I'll also make copies on disk. One thing that has concerned me is when the computer operating systems change, will they be able to "read " the old disks. I do not know, That is why I once worked on getting a list to print all on paper, or "hard dcopy". There is the chance I have some Clay does not. I have them all ov er the place. Your breakin was quite unusual. Probably the 'Boys" from the FBI. Recently, a retired FBI agent spoke to Betsy's class about lie detector tests. He ~~ixi~~ did not mention JFK or MLK, but he did more or less state that they did not get all the Oklahoma City bombers. I believe, from TV interviews, there are at least 2 suspects they could never find.

Don't forget, the Echelon program is based in Fort Meade. Those strange antennae, which I thought t were used to communicate with the East Coast nuclear sub program, can pick up even a 5 watt baby monitor, like parents use to put in babies room. ~~KAx~~ All of them, all over the country. ONE guy admitted to monitoring Sen. Strom Thurmond, all quite illegal. I am sure they have listened in on you, they can pick up any phone conversation in the world.

I have contacted JOe Arnold, midnight to 5am WHAS radio program, about doing a JFK show. We did a MLK show on his birthday. Did not do a JFK show last year, he apologized for missing it. So, I'll let you know. In the midwest and south, WHAS has the strongest signal, 38 states at night and Canada. Stronger than 1070 am in Indy, and stronger that WSM in Nashville, the Grand ole Opry station. Though they are both supposed to be 50,000 watts-

I'll write next week. Love to you and Lil.
Are the executors the same in your new will, or did you make any changes?
Trying to act normal here in Louisville,

Bill
