Dear Les.

Man proposes, Mether Nature disposes so my going to Washington will be when I can drive out. I'm snewed in again.

I'm awaiting a forecast of thawing weather.

It should be this week. I hepe:

This week I'll be without my ride. That friend has the week eff. I'll be using the bus, which is terrible in all ways, including schedule. I'll take one back about 2 p.m.

If you know when you will be down please let me know. I'll arrange either to be home that day or to make it that day and come back with you, if you can come here, as I'd like. There are things I want to show you.

Maybe you might even have some ideas about what I can do with them other than give them away.

If you can, please get the mames of all the Invaders at the Lerraine 4/4/68 from them and from Sailey the names of these he gave the FBI as checking out about 5:45 that same day.

He did. And he dees not have to werry about giving them new. They are blacked out in what I've received. I am confident each is an Invader. But he dees not have to werry about you or me and he dees knew he gave this to the FBI, which fails to state its source in what I have as of new.

On the committee, Sprague is in trouble. He is one of the two Iw went after. The other has already departed. There is no chance it will get its appropriation. I have a hunch I knew Fauntrey's hon-source on the Portugal connection, which has to be something else. I think there is a first-rate story in this. I also think you should not get begged down in it. It does not require you.

The committee's tep investigator on King is a fermer NYC dick named Evans. He is black. I have not heard from him and do not expect to given what I wrote Sprague while you were in Agrica.

I hepe Evans is not a Tem-cat. Or if he is a "em that he can get to be a real cat.

There is going to be one big difference in the coverage of this committee as long as Sprague is there: he did a very dirty thing with a reported named Walters in hila. when Walters was onto some police dirty-works. Whates Walter was then on the Bulletin. He is now with the Inquirer. The Bulletin has a good man on the stery. It also has had some good editorials. I have seen nothing from the Inquirer.

The baseless charges against Walters and the paper were drepped but Sprague has a large damage suit against him and the second paper ever senething else.

Best to all,
