

10/8/69

Dear John,

Many thanks for the Thermofax of the Finck testimony. It arrived today. When I saw the package and its size, I visualized your delayed brief. Frankly, I'm happier it is not for I've not time to go over the brief carefully now, and I am delighted to get this.

In the few minutes before supper I bound it. The thickness, with good covers, is not over 3/4 inch, which makes it ideal for travelling. I look forward to the chance to go over it carefully.

There is little new. Slowly, we are building an even better case against Frazier and his "testimony". I think it will be powerful in court. Little pieces from here and there are beginning to fit together. None of it will surprise you when it is completed.

Gary was due to go to Dallas today. I asked him to try and see some of the medical people I couldn't get to during my brief trip.

If you do not get the N.C. papers, Jim is out of the hospital.

Again, thanks.

Sincerely,

Harold Weisberg
