Dear Mr Weisberg,

Sorry for delay in replying but after much upheaval I have just got around to starting on James Earl Ray now.

If all goes well I should be in the States for two weeks commencing 26 August for one or two interviews including Mr Ray. Your book sounds most interesting and if you still have copies left I will purchase one from you during my visit - if we can fix up a meeting. Should the trip drop through I will order the book from you by post.

I think you are perhaps right when you query interest in the Ray case but I still have faith in its potential and intend to pursue the matter.

Thank you for permission to quote from your book - if I do so I shall of course give full credit in the piece for my source of information.

If all goes well I shall after arrival in New York travel for the rest of the time on the Greyhound Bus through to Nashville and Memphis - time permitting on the way back I hope to make short stops at Chicago, Washington, Paterson/Trenton, New York and finally Long Island - I am a supreme optimist!

Yours sincerely,

Dave Nicolson
