The young Air Force psychiatrist who wrote the eerily prophetic "President Nixon's Psychiatric Profile" has complained that he is being so harassed by his Air Force bosses he wants to resign.

Maj. Eli Chesen, chief of the Nellis Air Force Base, Nev., mental health clinic, has confided to congressmen that he has been threatened with courtmartial, that his patriotism has been questioned and that his integrity has been assaulted-all because of the book.

So serious is the alleged mistreatment, we have learned. that 13 plucky doctors at the Nellis base hospital have written Congress and the Air Force asking for a "full investigation" of Chesen's charges.

Chesen wrote his book while he was on inactive reserve. It was based on Mr. Nixon's speeches, biographies, televised appearances and writings. From this gigantic heap of material. Chesen shrewdly drew the conclusion that Mr. Nixon would never buckle from the most critical policy crises, but might disintegrate from personal problems.

The Air Force major finished his book almost a year ago when the world still believed in the exuberant Nixon of the 1972 election period. But Chesen accurately predicted that Mr. Nixon might become the present-day recluse of San Clemente, a lonely, tortured, insecure man.

Mr. Clean-Rep. Bert Podell (D-N.Y) has a particularly bitter taste in his mouth as he stands trial in New York on federal charges of conspiracy, bribery and perjury. His primary opponent, who beat him with a "Mr. Clean" campaign, is himself under investigation by the Kings County prosecutor.

The "Mr. Clean" in question is Steven Solarz, accused by a former employee of dipping into employee's paychecks while he was a New York State assemblyman. Solarz told us he has heard of the charges, but categorically denied them, saying they are part of the disgruntled employee's "vendetta" against hime.
