Dear Mark,

Thanks for the Harkness interview, which I've read, and for the Wade cassette that I_0^* ll take in with someone else here who'll want to see and hear it.

Wright was the name of the hospital security chief, former COP. That EP Wright had the bullet was known but he wasn't a nurse.

Delin did not question Dear. Griffith did.

That is an excellent Altgens enlargement. Do you have one showing the second copy on JFK's right? I presume the one in this section is Chaney. Backson was the other one. This picture paces them at a fixed time and is useful because it does that.

I believe that Earl Golz interviewed audrey Bell. So they should have a copy in Dallas.

But I think that was on Connally.

Mail heavy after holiday, so excuse rush.

Thanks and best toall,

X1.
