Dear Bill,

Separately I have written Maggie about things that interest you. Please check with her on this, which I'm writing after the mail left.

I would like, as soon as you can get it for me, everything you recall about the Dean interview not on that tape. It has been transcribed and, aside from interesting the person to whom I sent it, it also interests the influential executive of a major magazine. He has been conducting his own investigation and has interesting things. Also, he had developed an interest in Chláden, who he describes as a "movie star". I'm seeing him next week, possibly for several days, and much as I'd like it I know you cannot do this by then. *George*

The Minutemen also figure in part of my "New Orleans" book. I did not have the proof but these people apparently do. The tie is with the Cubans of the right.

I will tell him who you are Wednesday and if he is in touch with you directly you will understand.

This makes all the more important Turner's failure to let me have a set of the notes. Several people have spoken to him. I have not written him with a demand for that would not be good.

I have other Minutemen material I am making available, including knowledge of one who overheard a plot, a "contact" to his group that the Mafia rejected. As you know, Penn also says Lt. Butler is Minutemen. I know of vital evidence that was turned over to him that I have not found in the files.

This may be another nothing, but I think otherwise; it may be a real break.

I will be seeing pictures of Hell, Howard and Seymour! Maybe movies of them.

I have a *Loormen 2* that does not have the photographic screen in it. It is not the original and is at least third generation.

If you can do this on tape and mail it to a Washington address, which will never at least a day getting it to me, perhaps two if it is the day I go to DC that it would arrive, phone me and I'll give you an address. I'll be gone Saturday and until nighttime Sunday, but Lil will be here.

Presume you are doing well. Best to your grandmother and everyone else. Wish I thought I'd be out there again soon.

Sincerely,
