Clayton Ogilvie:

I hope that when you see Harold that you will pass on to him my heart felt feelings and wish him to get better. I had all of Harold's books but when I lent them to a friend, I just never got them back.

I think I was one of the first 10 persons to order Post Mortem. It was a fantastic book, and I just wished that somebody would have helped Harold. Only three years ago I had the chance to obtain a Bendix printing press. Harold could have really used it when he was printing his books.

I have placed an order to Hood College Bookstore. I hope Harold's Legacy project is a great success. His documents are more voluminous than libraries I know.

Please once again, give Harold my best wishes, and thank you for taking the time to email me about Harold.

God Bless.

Frank Hoffman
