

Harold and I had a little communication
problem recently. I learned Paul when
I am sitting I hate back. I was
accused of changing his manuscript, I
didn't do I told him as in motivation
Items. Had some religion of hearing and
learned abruptly when he got his
manuscript in Re mail. I learned only
on to not me with his manuscript.
I've adapted you and that as my
ground points, as I'm always looking
out for you two. Hope you like
your chocolate. I'll see you soon
get better and stronger. I'd like
to see you at home and speak
about. Day

... unless this is a nice break
from the juggling act
that you call your schedule,
in which case -

MILK IT FOR AS
LONG AS YOU CAN!

I get your notes back to back of
The T-Day Holiday. I am glad
you liked your flowers. It took
a little effort to locate a plant
from Idaho and to communicate
what I wanted for flowers for you.
I hope you are back home by the
time I arrive in Ecuador ~ 9 Dec 98.

GET WELL
