

... my memory detective is not retrieving this name, or is one of his notes not mentioned elsewhere/ If this is the case, do you know what led to him so very soon? He was located and seen four days after the assassination. Maybe Albany is not far from him and someday Gary can track into this. I think it may be very worthwhile.

CDR 1245:374-8: With the rest of this all or so large a sort sailed out of San Antonio so much earlier, why does this seem to be of Dallas origins and of so relatively late a date. If this is the case with the name identical with that of one of the men arrested at a camp, talked to, then again, etc they elsewhere? Why did this get reported, since the report is of 1943, date 2/14, three months earlier.
