LHO-Mexico

I have from the first felt that the major missing clues can be here, if you remember WW. I am less impressed that the link is Bowen. I don't dispute it, but I just have other hunches.

However, Popkin's 1/28 reporting his talk with Patricia Winston has a valuable clue in it, the one he spotted, that heavy eating. Now that the real one never did, ever, so far as I can recall. But, there are other inconsistent descriptions of the or one Mexico Oswald, another being money, not confirmed. I'll know a bit more about this, maybe, when I get my copy of CD955 and send a copy to my original source on Arnold Lewis Kessler, who immediately backtracked. I have an interview report with him someplace, for 1966.

I'm not familiar with passports, but I wonder if, after there has not been one for a while, when a new one is issued, earlier traveling is indicated? The original passport was returned to LHO for return to the US only.

If you want to tell P the truth about JG, what he asks about is not new. Only the public admission is new. This happened about the time the Shaw trial was over. And I'll be surprised, if he should get anything good, he'd now give it to a responsible one. He is not at all well, by the way. I spoke to Louis again Wednesday evening. The prognosis on the boy is not good, either.
