

6/26/94

Dear Jim,

Thanks for the two version of 89-43-104, one partly redacted. #103 was disclosed to me in 73-0322, without prior CIA approval. But in that lawsuit other records relating to the tape were withhld and my detailed appeals were ignored. I think it would be good to demand them now and now there can be no reason for withholding them. As you may remember, I wrote the FBI about this. ~~What~~ you sent me alone proves it lied to me in telling me that what it transferred to the Archives is what it had already disclosed to me.

The unredacted copy includes that the Mexico City SAC "Anderson has arranged for a transcript of the call" that was intercepted. Other disclosed records seem to indicate that Rudd got to Dallas, where "eitman picked him up at Love field, without such a transcript.

After the picture he had and the tape was listened to Dallas cabled or teleyped a summary of the tape to FBIHQ. It then asked for a transcript and that was sent immediately. The record that includes the summary and the one that is the transcript were withheld from me and I appealed that withholding.

If you look at these pages the original classification was by the FBI and in my lawsuit. That classification was then unjustified. This was even more true in 1980, when the CIA classified it. What was classified was public knowledge.

"Secret" appears not to have been on the record when typed. It is added to the bottoms ^{on} the two copies at different points at the bottom.

From Shanklin's memo Belmont lied in saying that Dallas had ~~virtually~~ "practically all" the Oswald info from Mexico City. Unless there was none then.

Thanks,

Thanks for the brief but good notice of Case Open. To whom was it sent? And for the Newsday story. Unless there are differences in the sets of autopsy photos I wonder what can be learned from the second set not yet located?
