

Note that on 12/23/63, well after the FBI knew there was a Commission to which it reported, which it was to fully inform, which was in charge, it edited out of the supposedly word-for-word transcription the identity of FBI Agent Hosty. The fictitious explanation was that it knew its own agent! so left him out. Did the Commission? This editing put the Commission in the position of not knowing that Oswald had Hosty's name etc., in his notebook. On February 11, the FBI prepared another report "correcting" this (page 4).
