agreed : mosphere toward the sun.

The sun's gravity, hauling on resume this bulge, then set the planet the Despinning slowly backwards.

RADIOACTIVE TESTS USED IN OSWALD CASE Detroit

GLASGOW, Scotland, Aug. 27 (UPI)-The use of radio-the op activity in criminology may de- to Mr. termine whether Lee Harvey tion of Oswald killed President Ken-overtin nedy, a San Diego, Calif., ments. chemist said today.

Dr. Vincent P. Guinn head of publish the activation analysis program sume t of the General Atomic division hopeful of General Dynamics Corpora-tlement tion, has been working on the ernor s problem with the Federal Bureau of Investigation.

"In the case of murder or any Hardin: crime involving a gun," Dr. that the Guinn said, "there is a paraffin toward test where a wax impression is strike :

taken of the hand and cheeks. dicator ing ses:
"There is a need for a better procedure and about three years ago we began working on acti"The Virginia analysis" vation analysis.

"We bought a similar rifle honor from the same shop as Oswald 11 of t and conducted two parallel Guild. tests."

He said the evidence had been with 12 given to the Warren Commis- ers ha sion and would be included in orders the report soon to be published preside on the death of the President, port for
