CD6, p.413, Oswald literature distribrution; Junichi Ehara, John Alice, WDSU films.

We know WDSU had appropriate films not used in the evidence. We should try and see them. With Mrs. Stern's attitude and NBC's policy, this may not be easy.

Alice, never a witness, had a very good look at one of the men, and the film should have told which. Alice should have been able to, also.

No ethnic origin is indicated for the man with Oswald.

Bringuier knew Ehara. Did not Ehara know him?

Ehara is in what I take to be a homosexual pose in these pictures. In any event, there is no reference to his unusual pose.
