CD194:12 I've filed this under lit dist, and I'd appreciate two copies which I will send to Ed Planer, one for Rotman, who we still there when last I heard. It is a courtesy they have earned by making the film available and, as you know, I have been keeping him posted. There should be a similar one on WWL-TV for LHO called them also. The date in the first par is wrong and I suspect on purpose. It was undoubtedly the time of the Bringuier "debate". From the second par, I'd say it was before 9/16. Is his name in the address book? If so, LHO had good advice on who to put in. If you speak to Rush, you might ask if Rotmen acted as assignment editor.
