CD6, p. 413 Oswald literature dist; Junichi Kbara, John Alice WDSU films.

We know WDSU had appropriate films not used in the evidence. We should try and see them. With Mrs. Stern's attitude and NBC's policy, this may not be easy.

Alice, never a witness, had a very good look at one of the men, and the film should have told which. Alice should have been able to also.

No ethnic origin is indicated forxthe man with Oswald.

Bringuier knew Kbara. Did not Kbara know him?

Kbara is in what I take to be a homosexual pose in these pictures. In any event, there is no reference to his unusual pose.
