Harold —

You were right — the series of articles did not appear in the Globe — Sam Richardson — the author — said that the series was shopped by everyone but when it came time to print — it was squashed by the head Editor!!

I told Sam that you had predicted that and he might call you to see why you knew that.

How are things with FOIA file on me and Susan.

Oliver-

Sorry my predictions were accurate.

Thanks for the story on Jimmy's suit. Do you have a copy of his complaint?

No word on the FOIA requests/appeals and I remind them from time to time.

When you were a Minuteman and got stuff from them and talked to them did you ever hear about a guy named Larry Gratzwohl? He also worked for the FBI. He was active with the Weathermen.

I've also heard he was going to write a book.

Sincerely,
