Oliver— thanks for your card of the 23rd. By now you know I have the Akai and because you are not here to integrate the whole mess the only help may be with tapes about which I've given you the best prices in Washington and here. Reel-to-reel interest is down everywhere because of cassette convenience. ... Enclosed is the Lane crap from this morning's Wash Post, probably not the whole story but I do not have the original wire copy of any other stories as of now. I know enough about the actual crime to be certain there is no basis for the newest "ane fabrication. ... The committee has reactivated ohn's subpoena. No word about this from "erry but I suppose they'll have him, too, and that "ane will rep. him. ... If I didn't ask you earlier: about may 1972 I was in St. L. and did a TV show with Stoner, "erry." erold Frank and a former DJ man. Stoner had a bymch of men around him, I thought as bodyguards. Were you one? Was Geppert? Eny reports to FRI then? ... Hope thinks have cooled down and started to look up so you can resume your normal life again.

Sincerely, HW 10/28/78
