

*not Senator Kennedy

the U.S. war machine!*

-Mark Lane

By Mark Lane

It has been reported that a Sen-
atorial aide to President Johnson
is being investigated by the FBI
in connection with the death of
Robert F. Kennedy.

The aide, Mark Lane, was seen in
the office of Senator Robert
Kennedy shortly before he was killed,

Lane refused to identify the emissary as
plaintiff.

"It is not for me to
name them. It would
be a breach of confi-
dence with Garrison."

He has said that he
was the only person,
apart from those on
Garrison's staff, who
had seen the extensive
evidence collected in
New Orleans on the
conspiracy.

Louis Ivon, an aide
to Garrison, told The
ENQUIRER when he
was queried on the
matter:

"Jim Garrison does
not want to discuss
this."

"He will not com-
ment on Lane's state-
ment or on the Robert
Kennedy slaying."

Lane, a 40-year-old

former member of the
Garrison staff, has been
employed by the Johnson
Administration since 1964.
