I've reviewed the rest of CP 1509 and will send you 2 copies. Note also CP 1532.  
I think the Mr. Walker reference is by Bob Walker. The rest is also  
very clear. I'm not sure if Mr. Davis' floor plan is in CP 1509 or not. I'm convinced  
I know the circumstances. I'm also convinced that the designation of each report -  
the main one is that the references are always cited in numerical order -  
at least in all the reports I recall seeing. Why do you suggest that may not be  
the case?
