Dear Mr. Wood,

Tomorrow or the next day I shall be sending you the unedited, very rough draft of the new book we discussed, COUP D'ETAT. There is not much I expect to add to it. If I have not heard from you by the time the additions are drafted, I will send them.

One deals with the direction (misdirection) of the Commission by Dulles and the federal agencies, chiefly CIA and FBI. The other will be on the Abe Bolden case. I think some of the contents of this book may throw a new light on that.

Before I started to write this book I had expression of European magazine interest. It is with this in mind that I organized it the way I did. I assume that if any of it interests you, you will use it your own way. I regret I have not been able to edit it or, what I'd prefer, get someone else to. I feel this subject deeply, as you know, and in writing, particularly as rapidly as I must, my feelings come out more than today's popular writing will tolerate.

Should the framework of Bobby part interest you, I have quite a bit of new material on that I am saving for the book on the autopsy, to which I will return as soon as I finish with this. I have much I did not have when we met, including official proofs opposite to the official account of what he said and what he did on the pictures and X-rays. I also have the once top-secret proof that the Commission intended using him for public relations and authentication - to grade on his name, bluntly - more than they dared.

My expenses from before were plane fare, \$79.80, airport parking, \$8.00, mileage to and from airport (110 mi. @ 8¢) \$8.80, air bus, Chicago, \$4.00, telephones to get materials, about \$5.00, and about two days of work, for which I am unable to fix a figure. Whatever you customarily pay will be satisfactory. If you want this in the form of a bill I, please tell me what to ask for the time and I'll send it.

If you and Murray are keeping up on the "mysterious deaths", there is another, Philip Geraci II, father of the unnamed boy in this book, the kid who had a relationship with Oswald not disclosed before the Warren Commission. From the father I got a taped statement 7/10 that comes close to tying two different parts of the New Orleans case together and coming close to establishing perjury by Bringuier. Geraci, an electronics expert, was "accidentally" electrocuted Saturday. He had a gun buff. The son was a client of Captain Robert Brown.... Hope you can find interest in COUP D'ETAT.

Sincerely,

Harold Weisberg
