Dear Mr. Weisberg:

I recieved today 24 slides, from the Secret Service, which were taken by Phill Willis, Mr. Willis's 12 slides which he copyrighted were included in this group of 24. I had asked for 27 slides, but according to the SS #123 are personal photographs of the Willis family, these were not given to me.

NO | Can you tell me if there is any documents, pertaining to the SS and of which Mr, Willis's photos are mentioned? Can you also tell me if you ever saw these photographs? Most of the photographs are useless in my research due to the fact they were taken after one thirty, but there is one which is #13 which shows someone being arrested, the only trouble is, the head of this man is cut off the slide, do you know if the slide, I mean the original slide was cut like this? If you'd like copies of these, you may have them.

Our local TV educational station is broadcasting the Select Committee Hearings, in full. Do you think Mr. Ray will come out of these hearings cleared of his guilt in the King murder? And do you think the FBI will be in hot water, due to there part in the investigation and or murder?

I'm sorry to have taken so much of your time, keep up the good work and best wishes to you and yours.

My only interest in the new Willis slides is for historical completeness, to eliminate later nutty allegations about what they hold. What you report is what I'd learned about 11/66 and forgot.

My major interest re these things is in being able to use them in FOIA matters. I'd asked the SS for everything more than 7 years ago, under FOIA. Bitto for most other agencies. So any correspondence, regardless of how little it may suggest to you, may have values to me.

Sincerely,
