Jon Newball phoned to check out an Earth News report that dregory told the BJ that he and his "investigators" have a confession from one of three alleged assessing and that he is willing to talk if granted immunity. Not against murder (it never occurred to any of these geniuses that BJ can't grant Texas immunity) but against "treason" because this assessin has a KGB complicated past.

He is ready to name names, too, this assassin. Wonder if he is Castillo? Hicks? Hantung?

Maturally DJ says with all proper solumnity they are taking this seriously. They confirm their meetings, etc.

Jon is sending me some San Diego material. He had expected it to be here today but it isn't. He mailed it.

Do you have the "packet of materials" Mark and Bud sent Congress?
