Dear Mr. Weisberg,

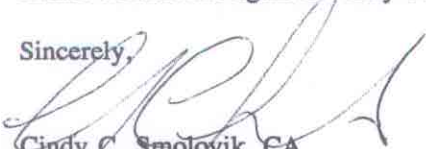

Thank you for your interest in the JFK Collection. In response to your request regarding photographs I have enclosed the introductory pages to the contact print albums which were created for viewing the photographic images. The Dallas Municipal Archives and Records Center (DMARC) is providing reproductions of the photographs from the JFK Collection. All prints are stamped with the appropriate credit information. Also included is a current fee schedule for reproductions.

The collection does contain photographs of a rifle behind boxes on the sixth floor of the Texas School Book Depository. However, without a visual reference I cannot determine whether this is the specific photograph you are wanting.

The 'catalogue' which Jim Leavelle refers to is a twenty-eight page DRAFT of a folder level guide to the collection using original Dallas Police Department file folder titles, some of which do not give a good indication of the folder contents, but it is useful. I would be happy to provide you with a photocopy. The fee for photocopies is \$.50 per page plus \$1.00 postage and handling. All fees must be paid in advance.

Please contact me again if I may be of further assistance to you.

Sincerely,
