Dear Sol,

I was in NY yesterday and part of today. I didn't want to take up your time because I knew you had a steff meeting this morning in which you might have lost even more time so I didn't call.

Sidney told me this am he had received a card from Douglnck and Domenick announcing the appointment of Ivan Volensky as a customer's man. I presume this means the obvious but do not know.

Sincerely,

Nothing else new. Regard all.
