Dear Mark,

I presume your failure to come at the appointed time does not betoken a broken leg.

I also do not forgo the "I told you sos" about yesterday's Rap Brown news.

But I do recognize that in the first case there was probably nothing you could do (except phone) and in the second that had you the time you had no more chance of turning anyone on than I. And did I try!

This is far from all the Brown story. I await the display of legal genius-what is very obvious. Aside from what I discussed with you.

None of this relates to my immediate purpose.

I have a 10 a.m. appointment at physical theraphy, Group Health, Tuesday a.m. (bursitis). I'll be there 15-20 minutes after I am admitted. Thereafter I have to anticipate a fairly busy day. I will have something with me that I think will interest you very much, some of Richard Sobol's friends no less, and not related to anything I have shown you or discussed with you.

You will be able to read it in less time than my examination/treatment will take. I'll have my car, and we can discuss it while I drive you to your office, if you can meet me there. This is on the 3rd floor, N.E. corner.

As usual, I'll ask only preservation of my confidence.

I think the address is 2121 Pa. Ave,, NW. It is in that block, anyway.

If you cannot make it and want to talk to me, I expect to go from there to Bud's office.

Best regards,

Harold Weisberg
