Dear Carol,

7/29/80

Thanks for the clipping on Jimmy's suit. It didn't get here until today.

I don't think Jimmy intends it as any more than a way in which he hopes to be able to get some discovery and maybe some records that can help him.

John wrote me on the 22d. The postmark was the 25th. So it seems that they are giving his mail special attention. That is a reasgn I didn't write him until I heard from him. I didn't ask him any questions because that would only lead to their copying anything he migh have told me. I was able to give him the info he wanted.

Jerry is still making big speeches about going up to the trial and straightening out the press. It will be a disaster if he doesn.

I've not read Newton's book and I'm not going to buy it. He was in touch with me years ago and he was not as good as his word. He's probably ripped off all he could, as most do, added a little imagination to it, and calls it a book. He was in touch with Jimmy, so maybe he has something from that.

Itmdoesn't look good for John, I'm afraid.

If it is as it looks, Mark Lane is probably the best kind of lawyer for him because it will require all that show stuff at which he has had so much experience.

Best to you all,

7/24/80

Harold,

I am enclosing a Clipping from the Post. I'll Check the Globe on the way to the Post office. If there is any stories in it I will enclose that too.

I haven't heard from Jack. Jerry told me he has a lawyer.

I resieved the newton book last week. There is a few things in the book that I had not read before.

Carol
