Mr. Harold Weisberg JE Ray

Dear Harold,

I have your August 15th letter. In re the FOIA request for the Abernathy file, I also doubt if there will be any revelations in it. But since it doesn't cost much to file for it there is no point in not trying to obtain it--I got a JD responce yesterday, it was a motion to the court for a delay in answering my Summary judgment petition. JD claims they are in effect short of attorneys. I don't keep track of interviews as they don't interest me that much, I guess Gabby keep a diary of his. The foreign media has helped more in support of a trial than the literary-TV media shysters over here. When BBC did their 1988 documentary two agents ( SS dude named Baker & the head of the FBI serial killer squad), came to see me in Brushy & said FBI not at fault for no-trial. JD was. Also SIGMA TV of France aired a K documentary about 2 months ago in effect supporting a trial.

I don't know the details of the Thames format. I imagine Blabber knows all about it. I think they are going to give him something to check on some info in St. Louis. Oliver Patterson was going to do it but he died about 2 months ago. Anyway Jerry will ball it up if it is possible. Oliver Stone isn't making any movie re the K case, I spoke briefly to him about the classified documents & he will advocate their release. The movie bit is more of Blabber's bull-s. That's about it for now, have to earn my upkeep by sweeping the floor. If Gabby should solve the case I'll get back with you.

Sincerely,

JER
