Are the "incidents" of the WATERGATE

affair only a prelude leading to a
police state with full power to . . .

- Invade your bedroom?
- Monitor your privacy?
- Bug your telephone?
- Intercept your mail?
- Censor your reading?
- Influence the courts?
- Raid your bank account?
- Destroy your career?
- Choose what you eat?
- Select your doctor?

The "dirty tricks" exposed in the Watergate scandal are but a sample of the many abuses of power by some government agencies whose bureaucrats will stop at nothing.

Our tax burden is outrageously high — but ask yourself: Was the \$287,000.00 "raked in" by one federal official in any way related to pre-Watergate?

WATERGATE TACTICS USED BY MANY GOVERNMENT AGENCIES

In his new book, "The Dictocrats," Omar V. Garrison, award-winning journalist, minces no words when he reveals all the sordid, ugly, dirty, gory details of how bureaucrats use the power of their office for personal gain — and to destroy those with whose views they may not agree.

Not in years has a book been written to equal its scorching, but well-documented revelations about the high-handed crookedness and arrogance in many of our government agencies. Omar V. Garrison pulls the lid on the would-be-good, rich corrupters who affect your way of life — and your pocketbook!

"The Dictocrats" is a book that will send many bureaucrats scurrying for cover—to hide in shame for their misdeeds.

"The Dictocrats" will open your eyes to a bad situation that must be corrected before it is too late. Get your copy today—\$1.00 in paperback, at booksellers or use coupon below.
