NEW RA-A SERIES OFFERS 'TRUTH ON ASSASSINATION'

Are the Warren Report critics scholars or are they scavengers?

Was LBJ inconsiderate in his takeover of the Presidency?

Did one bullet hit both JFK and Gov. Connally?

These are some of the questions Charles Roberts, White House correspondent for Newsweek Magazine, answers in his newly-published book, "The Truth About the Assassination," which will be serialized in six installments for readers of the Record American-Sunday Advertiser, starting Tuesday, March 28.

Roberts was riding in the first press bus of the Kennedy motorcade when the fatal shots were fired. He was at Parkland Hospital and he was one of the pool reporters who personally witnessed the swearing-in of Lyndon B. Johnson aboard Air Force One, the Presidential plane. He accompanied the new President, his wife and Mrs. Kennedy aboard the plane bearing the body of the slain President back to Washington.

Watch for "The Truth About the Assassination," starting Tuesday, March 28.
